— ABOUT ME

Frontend-first engineer with full-stack roots and nearly two decades of experience since 2007. I build scalable web products that turn complex business rules into fast, intuitive interfaces.

I understand the full delivery chain, collaborate comfortably with product, design, and backend teams, and build interfaces that stay maintainable as products grow. I embrace architectural refactoring, keeping my tech stack, testing coverage, and CI/CD pipelines at the bleeding edge.

— PROFESSIONAL EXPERIENCE

08/2024 - Present

Senior Frontend Developer

Schilling Aps · Copenhagen

Leading frontend development for Schilling web applications and data products, working with React 18/19, TypeScript, Node.js, Tailwind and Shadcn UI to scale complex real-estate workflows.

08/2022 - 07/2024

Senior Frontend Developer

Resights Aps · Copenhagen

Leading frontend development for Resights web applications and data products, working with Vue 2/3, Nuxt 2/3, TypeScript, Pinia/Vuex, Node.js, and Vuetify to scale complex real-estate workflows.

08/2020 - 07/2022

Senior Frontend Developer

Novo Nordisk · Copenhagen

Built internal health and administration tools for Novo Nordisk with Vue, Vuetify, HTML, and CSS, focusing on reliable UI foundations for regulated medical teams.

02/2020 - 09/2020

Senior Frontend Developer

Wunderman Nordic · Copenhagen

Delivered accessible campaign and landing experiences for Wunderman Nordic using Vue, SCSS, Bootstrap, and C# integrations.

12/2017 - 01/2020

Lead Frontend Developer

GiG Media Copenhagen · Copenhagen

Led frontend development at GiG Media Copenhagen across affiliate and content platforms, modernizing legacy estates built on Laravel, Drupal, October CMS, MySQL, jQuery, Bootstrap, and PHP.

06/2017 - 12/2017

Frontend Developer

Rebel Penguins Aps · Copenhagen

Worked on high-conversion affiliate products at Rebel Penguins, shipping frontend improvements, experiments, and UI iterations.

11/2015 - 06/2017

Full Stack Developer

Rebel Penguins Aps · Copenhagen

Developed internal dashboards and external client sites end to end at Rebel Penguins using PHP, MySQL, jQuery, Bootstrap, Drupal, October CMS, and Laravel.

05/2015 - 10/2015

Volunteer

Plan Denmark · Copenhagen

Supported Plan Denmark's sponsorship department by registering and validating documents.

12/2014 - 05/2015

Full Stack Developer

Viruta Studio Creativo · Pinar del Rio, Cuba

Founded Viruta Studio Creativo and built custom products for local organizations and media outlets using PHP, MySQL, PostgreSQL, Joomla, Drupal.

10/2012 - 06/2014

Full Stack Developer

I & D Agency, GEOCUBA · Pinar del Rio, Cuba

Built internal systems at GEOCUBA's R&D agency, combining PHP, MySQL, PostgreSQL, Ext JS, jQuery, Bootstrap, and geospatial tooling.

09/2010 - 10/2012

Full Stack Developer

Provincial Office ONEI · Pinar del Rio, Cuba

Developed statistical and administrative solutions for the Provincial Office of ONEI using PHP, MySQL, HTML, CSS, Ext JS.

02/2007 - 06/2010

Full Stack Developer

Project 'National Library'. UCI · Havana, Cuba

Started my professional career on the National Library project at UCI, building Drupal, PHP, and MySQL solutions while coordinating junior developers.
